

## Data Discovery Use Cases by Industry

Here are a few examples of Data Discovery use cases, as seen by different industry verticals:

- **Banking**

Various US financial firms using Data Discovery to offer macro-economic information as a service.

- **Manufacturing**

Merck was able to improve pharmaceutical yields with cross-batch analysis.

- **Railroad**

A special service engine ("Data Train") was able to prioritize rail repairs by capturing video of rail health.

- **Telco**

Various telecommunication companies around the world are using millions of decentralized CDRs (call detail records) to improve cell service.
